

1 INTRODUCTION

1.1 review some problems in AI systems

1.2 suggest Theoretical basis for thinking about this stuff

1.3 Enter: Bureaucracies

2 LIT REVIEW

3 CASE STUDIES

3.1 Case study 1

3.1.1 What's the issue?

3.1.2 How can we think about this bureaucratically?

3.1.3 What would bureaucratic alignment suggest? What questions would we still need to answer?

3.2 Case study 2

3.2.1 What's the issue?

3.2.2 How can we think about this bureaucratically?

3.2.3 What would bureaucratic alignment suggest? What questions would we still need to answer?

3.3 Case study 3

3.3.1 What's the issue?

3.3.2 How can we think about this bureaucratically?

3.3.3 What would bureaucratic alignment suggest? What questions would we still need to answer?

4 DISCUSSION

5 CONCLUSION
