"street-level algorithms" struggle with novel situations

"street-level algorithms" struggle with novel situations

how are they changing our lives both offline and online?

"street-level algorithms" struggle with novel situations

how are they changing our lives both offline and online?

…and how will they?

Teens have figured out how to mess with Instagram's tracking algorithm

Teenagers are using group accounts to flood Instagram with random user data that can't be tied to a single person.

TOP DEFINITION

Backstreet Boys Reunion Tour

In the wake of the CO-VID 19 pandemic, which occurred in the spring of 2020, the Youtube gods attempted to **crack down** on the hysteria by demonetizing content that contained the word 'Corona', 'Virus' or '19' in any variation, especially in that specific succession. So in an effort to avoid divine punishment, humanity made the collective decision (headed by **Dan Avidan** of the Game **Grumps**) to henceforth refer to the virus only as the 'Backstreet Boys Reunion Tour'.

*Seven people in my town died after attending **the Backstreet Boys reunion tour**.*
