What do we mean when we talk about Data Ethics?

LET'S TALK ABOUT WHAT **KINDS** OF ISSUES CAN COME UP

LET'S TALK ABOUT WHAT KINDS OF ISSUES CAN COME UP

AND HOW TO WORK THROUGH THEM

Methods:

- Data **acquisition**
    - surveillance
    - experimentation
- Data **use**
    - classification
    - labeling

Methods:

- Data **acquisition**
    - surveillance
    - experimentation
- Data **use**
    - classification
    - labeling

Topics:

- Algorithmic worker management
- Clinical applications of AI
- Computational policing
- AI (and/or surveillance) in education
- Public administration and AI
- Housing, lending, etc…
- Race and algorithmic harms
- Gender and algorithmic harms

ROADMAP

Methods:

- Data **acquisition**
  - surveillance
  - experimentation
- Data **use**
  - classification
  - labeling

Topics:

- Algorithmic worker management
- Clinical applications of AI
- Computational policing
- AI (and/or surveillance) in education
- Public administration and AI
- Housing, lending, etc…
- Race and algorithmic harms
- Gender and algorithmic harms
